

Overseas Honorary Members Commendation

June 3 (Thu.) 18:00-18:20 [Room 1 (1003)]

OHM Overcoming Challenges in Living Donor Liver Transplantation

Chao-Long Chen

Kaohsiung Chang Gung Memorial Hospital, Taiwan

Professor Chao-Long Chen is a pioneer liver transplant surgeon who performed the first successful liver transplantation in Asia in 1984, and by 2020, has accomplished 2000 more. He obtained fellowship training in liver transplantation under Professor Thomas Starzl at the University of Pittsburgh, USA. He is a recipient of various honors and distinctions, both locally and internationally. He became Professor of Surgery in 1993 and was subsequently bestowed with honorary PhD and professorship by acclaimed international universities. In 1994, he performed the first LDLT in Taiwan and was bestowed with the National Award for Outstanding Contribution in Science and Technology in 1995. He did the first split liver transplantation in Asia in 1997 and started the adult LDLT in Taiwan by 1999. Further, he performed the first dual graft LDLT in Taiwan in 2002, pioneered routine microsurgical biliary reconstruction in the world in 2006, and performed Taiwan's first segment 2 monosegment LDLT in 2013. He was bestowed Distinguished Service Award of the International Liver Transplantation Society in 2019.

He was Superintendent of the Kaohsiung Chang Gung Memorial Hospital from 2003 and became Superintendent Emeritus since 2015. He has published more than 500 SCI-cited scientific articles, lectured in more than 300 international and overseas congresses, and has trained more than 370 fellows and observers from all across the world. He serves as associate editor of the American Journal of Transplantation and editorial board of Annals of Surgery among other high ranking scientific journals. He was elected as Academician of the Chinese Academy of Engineering in 2007 and as President of the International LDLT Group in 2020-21. He remains director of one of the leading global centers in LDLT.

Special Session 2: Robot-assisted surgery in HBP field

June 3 (Thu.) 13:00-13:40 [Room 1 (1003)]

SS2 Revo-i Pancreaticoduodenectomy: recent updated

Chang Moo Kang

Division of HBP Surgery, Department of Surgery, Yonsei University College of Medicine, Korea

- 1997: Graduated Yonsei University College of Medicine, Seoul, Korea
- 1997-1998: Intern-ship in Yonsei University Health System, Seoul, Korea
- 1998-2002: Resident-ship of department of surgery, Yonsei University College of medicine (Yonsei University Health System)
- 2002-2005: Mandatory military service as army surgeon
- 2005-2006: Fellow-ship of division of hepatobiliary and pancreatic surgery, department of surgery, Yonsei University College of medicine
- 2006-2007: Instructor of surgery, Department of surgery, Yonsei University College of medicine
- 2007-2015.2: Assistant professor, Department of Surgery, Yonsei University College of medicine
- 2011.8 -2012.8 Clinical and Research Fellowship in UCSD Moores Cancer Center (Surgical Oncology), San Diego, USA
- 2015.3-2019.2 Associate professor in Yonsei University College of medicine
- 2019.3- Professor in Yonsei University College of medicine
- 2019.3- Chief, Pancreatobiliary Cancer Center, Yonsei Cancer Center, Severance Hospital

Major Research field:

- Pancreatic cancer surgery
- Minimally invasive (robotic & laparoscopic) pancreatic surgery
- RON receptor tyrosine kinase in pancreatic cancer carcinogenesis
- Tumor glucose metabolism-based cancer treatment:
 - Targeting cancer microenvironment and therapeutic diet
 - Tumor biomarker

Debate 1: Hepatic resection: Laparoscopic vs Robotic Surgery

June 2 (Wed.) 12:40-13:40 [Room 2 (1001)]

D1-2 Minimally invasive hepatectomy laparoscopic vs robotic approach**Tan To Cheung**

Division of Hepatobiliary and Pancreatic Surgery within the Department of Surgery, Queen Mary Hospital, the University of Hong Kong, China

Tan To Cheung is the Chief of the Division of Hepatobiliary and Pancreatic Surgery within the Department of Surgery, Queen Mary Hospital, the University of Hong Kong, and Vice President of the Hong Kong Society of Hepatobiliary and Pancreatic Surgery and Council member of Liver Foundation. He is currently Clinical Associate Professor of the University of Hong Kong.

Dr. Cheung is a world-renowned leading experts in the field of laparoscopic liver resection for primary liver cancer. He has performed the most laparoscopic liver hepatectomies in Hong Kong with good outcome and zero mortality. He published the results of laparoscopic hepatectomies at Queen Mary Hospital in various journals, including *Annals of Surgery* twice. (More than 200 citations since 2013 and >80 citations since 2016). He has presented his work on laparoscopic liver resection in patient with cirrhosis in 135th American Surgical Association Annual meeting. The papers he published has been highly cited. He completed the degree of Doctor of Medicine in 2018. His thesis was the "Application on Minimally invasive Hepatectomy for liver cancer."

Dr Cheung is very active and outspoken in this field internationally.

He was the founding member of International Laparoscopic liver Surgery Society and was elected as Advisory board member in 2019. Vice Chairman of radiology committee of International liver transplant society.

Dr Cheung is an active researcher with a successful grant record including principle investigator and co-investigator of various grants from UGC HK and China with at total amount of more than 42 Million.

Dr. Cheung was a recipient of the GB Ong Travelling Fellowship Award 2013 and James IV travelling Fellowship Award 2017. He has authored more than 200 peer-reviewed articles and other publications, and is frequently invited to lecture internationally and to present in plenary sessions. He has mentored a large number of trainees, including post graduate degree and oversea academia.

Debate 3: Treatment for multiple intrahepatic HCC: Resection vs Transplantation

June 2 (Wed.) 12:40-13:40 [Room 4 (1008)]

D3-2

Ki-Hun Kim

Division of Hepatobiliary Surgery and Liver transplantation, Department of Surgery, Asan Medical Center, Ulsan University, Seoul, Korea

Dr. Ki-Hun Kim is currently a professor and chief of division of Hepatobiliary surgery and Liver transplantation at Asan Medical Center, University of Ulsan College of Medicine, Seoul, Korea. He graduated from Korea University College of Medicine in 1992 where he earned PhD degree in 2003, and completed a surgical resident training in Korea University hospital in 1998. He completed a fellowship training of Hepatobiliary surgery and Liver transplantation at Asan Medical Center in 2000. He was an instructor of Surgery at Seoul Baik Hospital, University of Inje, Korea in 2001, a visiting professor of Surgery at Kobe University Hospital, Kobe, Japan in 2006, and participated in the Multivisceral Transplantation Program as a visiting professor at Miami Transplant Institute, University of Miami, USA in 2007. He has been a faculty member of Surgery at Asan Medical Center since 2002. He was a secretary general in the international meeting for HCC 2008, IHPBA 2014, ELSA 2015, ELSA visionary summit 2017, and ISLS 2018. He is a member of ILTS, ILLS, IHPBA, AHPBA, IASGO, ELSA, EAES, KMS, KAHPBS, KSOT, KASL, KSELS, and KLTSG. He performed the first successful pure laparoscopic living donor hepatectomy for pediatric LDLT in 2008, Asia-Pacific region and multivisceral transplantation with a pediatric surgeon in 2011, Korea. Dr. Kim has more than 3,000 open hepatectomies and more than 1,000 laparoscopic hepatectomies including living donor hepatectomies and was the operator at live demonstration of open and laparoscopic liver resection in the international meeting for HCC 2008, IASGO 2009, 2011, 2015, ILDLT 2015, ILTS 2016, ELSA visionary summit 2017, ISLS 2017, ISLS 2018, ISLS 2019, and HBP surgery week 2021. He performed LDLT with his colleagues in France 2004, Turkey 2006, and India 2008, and open hepatectomy in USA 2007, and laparoscopic hepatectomy in India 2011, Russia 2014, Singapore 2015, Qatar 2017, and Bulgaria 2019. Especially, He enjoyed riding a motorbike, Harley-Davidson, but stops for family peace now. He published more than 300 scientific articles.

Symposium 2: Indication of laparoscopic surgery for pancreatic cancer

June 3 (Thu.) 9:40-11:30 [Room 2 (1001)]

SY2-1 Safety Indication of laparoscopic and robotic surgery for pancreatic cancer**Jae Hoon Lee**

Department of Hepatobiliary & Pancreas Surgery, Asan Medical Center, Korea

Education:

Sep. 2007 - Aug. 2010 Ph.D., College of Medicine, Hanyang University, Seoul, Korea

Mar. 1995 - Feb. 2001 College of Medicine, Hanyang University, Seoul, Korea

Professional Qualifications:

Date

Qualifications

Training:

Mar.2010 – Feb.2012 Fellowship, Surgery, Asan Medical Center, Seoul, Korea

Mar.2009 – Feb.2010 Fellowship, Surgery, Hanyang University Hospital, Seoul, Korea

Mar.2001 – Feb.2006 Internship/Resident, Hanyang University Hospital, Seoul, Korea

Positioning:

Mar. 2012 – Feb. 2016 Clinical Assistant Professor

Mar. 2016 – May. 2016 Visiting to Robotic HBP center of UPMC (Univ. of Pittsburgh Medical center, USA)

Mar.2017 – present Clinical Associate Professor

MDT) **Asan Medical Cancer Center** (Multidisciplinary team member of Colorectal liver metastasis & Biliary-Pancreatic cancer)Tutor) **Asan Robotic Surgery Center & training center****Social activities**

Director of Educational committee, Korean Association of HBP surgery

Member, Korean Society of Endoscopic & Laparoscopic Surgeons

Member, Korean Liver Cancer Study Group

Member, Korean Society of Surgical Oncology

Member, IHPBA (International Hepato-Pancreato-Biliary Association)

Member, ELSA (Endoscopic & Laparoscopic Surgeons of Asia)

Member, EAES (European Association for Endoscopic Surgery)

Director of Information technology committee, KAROS (Korean association of robotic surgeons)

Member, CRSA (Clinical robotic surgeon association)

Video Symposium 1: Tips of laparoscopic S7/8 liver resection

June 2 (Wed.) 9:20-11:10 [Room 5 (1009)]

VS1-1 Laparoscopic Anatomical Segment 8 Resection Using Primary Parenchymatous Transection Technique with Application of ICG-Fluorescence Imaging

Rawisak Chanwat

Department of Surgery, National Cancer Institute, Bangkok, Thailand

BRIEF INTRODUCTION

Dr. Rawisak Chanwat graduated from Chulalongkorn University, Thailand in 1998 where he also did his residency in General Surgery. In 2011, he did his clinical fellowship of Hepato-Biliary-Pancreatic Surgery at the Institute of Gastroenterology, Tokyo Women's Medical University in Japan. He serves in numerous medical organizations, including as an executive committee and secretary general of Thai Hepato-Pancreato-Biliary Surgery Society (THPBS), committee member of society of Laparoscopic and Endoscopic Surgeons of Thailand (L.E.S.T.), secretary general of International Association of Surgeons, Gastroenterologists and Oncologists (IASGO) Thailand chapter, executive board member of Mekong Endo-Surgery Development Association (MESDA) and member of the Royal College of Thai Surgeons. Currently, he is the chairman of surgical department and a HBP surgeon at the National Cancer Institute of Thailand, Bangkok, and a senior consultant at Chulabhorn Cancer Center, Bangkok.

RESEARCH INTEREST

His main research interest are new techniques in both open and laparoscopic liver resection. He has presented in several scientific exhibitions and published articles in this field.

Video Symposium 2: Recovery shot for intraoperative injury/complication in laparoscopic HBP surgery

June 3 (Thu.) 9:40-11:30 [Room 5 (1009)]

VS2-1 Recovery shots for intraoperative injury or complication in laparoscopic HPB Surgery: A single institution experience**Koh Peng Soon**

Department of Surgery, University of Malaya, Malaysia

Dr Koh Peng Soon graduated in 2002 with MBBS from the International Medical University. He first gained experience in Surgery working as a medical officer in the Department of Surgery, Hospital Taiping right after internship where he obtained his Membership of the Royal College of Surgeons of Edinburgh (MRCSEd), UK in 2005. He joined University of Malaya in 2006 for postgraduate training and graduated with Masters of Surgery (MSurg) in 2010. He worked as a General Surgeon in Hospital Sungai Buloh after graduation before rejoining University of Malaya as a Senior Lecturer and Clinical Specialist in 2011 for sub-specialty training and his interest in Hepatobiliary and Pancreatic Surgery.

In October 2013 to September 2014, he spent a year as a Fellow and Honorary Clinical Associate at the Division of Hepatobiliary & Pancreatic Surgery and Liver Transplantation, Queen Mary Hospital, The University of Hong Kong, Hong Kong which is world renowned.

His interest in HPB field involves HPB malignancies, minimal invasive surgery (MIS) and liver transplantation. Besides clinical duties, he is actively involved in undergraduate and postgraduate teaching as well as research and already has several publications to his name.

He received his promotion to Associate Professorship in early 2019 and is currently the Head of HPB Unit and Consultant Surgeon in the Department of Surgery, University of Malaya Medical Centre.

Panel Discussion 2: Surgical treatment for intrahepatic cholangiocarcinoma

June 2 (Wed.) 12:40-14:00 [Room 5 (1009)]

PD2-1 Role of pyloroplasty in intrahepatic cholangiocarcinoma patients undergoing extensive left-sided lymph node dissection

Dong-Sik Kim

Division of HBP Surgery & Liver Transplantation, Department of Surgery, Korea University College of Medicine, Korea

Education

- 1989 – 1996 Korea University College of Medicine, Seoul, Korea. Doctor of Medicine
- 1997 – 1999 Korea University Graduate School, Seoul, Korea. Degree of Master
- 1999 – 2004 Korea University Graduate School, Seoul, Korea. Degree of Ph. D.

Residencies/Fellowships

- 1996 – 1997 Internship, Korea University Medical Center, Seoul, Korea
- 1997 – 2001 Surgical Residency, Korea University Medical Center, Seoul, Korea
- 2004 – 2006 Fellowship, HBP Surgery and Liver Transplantation, Department of Surgery, Asan Medical Center, Seoul, Korea
- 2006 – 2008 ASTS-accredited Fellowship, Multi-Organ Transplant Surgery, University of Cincinnati, Cincinnati, Ohio, USA

Academic Appointments

- 2008 – 2009 Assistant Professor of Surgery, Division of Transplantation, University of Cincinnati College of Medicine, Cincinnati, Ohio, USA
- 2009 – 2011 Assistant Professor of Surgery, Division of HBP Surgery & Liver Transplantation, Department of Surgery, Korea University College of Medicine, Seoul, Korea
- 2010 – present Director, Organ Transplantation Center, Anam Hospital, Korea University Medical Center, Seoul, Korea
- 2011 – 2015.8 Associate Professor of Surgery, Division of HBP Surgery & Liver Transplantation, Department of Surgery, Korea University College of Medicine, Seoul, Korea
- 2012 – present Director, Division of HBP Surgery & Liver Transplantation, Department of Surgery, Anam Hospital, Korea University Medical Center, Seoul, Korea
- 2015. 9.- present Professor of Surgery, Division of HBP Surgery & Liver Transplantation, Department of Surgery, Korea University College of Medicine, Seoul, Korea

Panel Discussion 3: Therapeutic strategy for advanced hepatocellular carcinoma

June 3 (Thu.) 13:00-14:50 [Room 4 (1008)]

PD3-1 Laparoscopic Liver Resection for Advanced HCC**Kuo-Hsin Chen**

Surgery, Far-Eastern Memorial Hospital, Taiwan

Education:

Medical Degree: College of Medicine, National Taiwan University, Taiwan (1986~1993)

Residency: Department of Surgery, National Taiwan University Hospital Taiwan, 1995~2000

Clinical Fellow: Minimally Invasive Surgery Center, Cleveland Clinic Foundation, Cleveland, Ohio, USA 2001

Visiting scholar, Department of HPB and transplantation surgery, Kyoto University, Kyoto, Japan 2007

Approved Liver & Kidney transplant surgeon (living & deceased donor) in Taiwan

Affiliation, Academic appointment:

Chairman, Department of Surgery, Far-Eastern Memorial Hospital, New Taipei City, Taiwan

Chief, Division of General Surgery, Department of Surgery, Far-Eastern Memorial Hospital (since 2004)

Academic Society Membership:

President, Taiwanese Hernia Society

President, Taiwan Association for Endoscopic Surgery

Board member, Taiwan Surgical Association

Board member, Taiwan Robotic Surgery Association

Board member, Taiwan Surgical Society of Gastroenterology

Board member, Taiwan Pancreas Society

Board member, Taiwan Peritoneal Oncological Association

Instructor, Taiwan Association for Endoscopic Surgery

Instructor, Surgical Oncology, Taiwan Surgical Association

Instructor, Taiwanese Hernia Society

Member of Society of American Gastrointestinal and Endoscopic Surgeons (SAGES)

Member of European Association of Endoscopic Surgery (EAES)

Member of Asia-Pacific Hernia Society (APHS)

Member of Endoscopic and Laparoscopic Surgeons of Asia (ELSA)

Member of International Hepato-Bilio-Pancreatic Association (IHPBA)

Member of American Hepato-Bilio-Pancreatic Association (AHPBA)

Member of International Liver Transplantation Society (ILTS)

Member of American Hernia Society (AHS)

Biography

Currently, Dr. KuoHsin Chen serves as the chair of department of surgery, Far-Eastern Memorial Hospital, New Taipei City, Taiwan.

His main academic interest is hepatobiliopanreatic surgery, herniology, liver and kidney transplantation and minimally invasive surgery. He initiated one of the earliest TEP endoscopic hernia repair program in Taiwan in 2001, the first robotic HPB surgery program in Taiwan in 2010 and started the first laparoscopic donor hepatectomy for adult living donor liver transplantation in Taiwan in March 2012. Dr. Chen also serves as President of Taiwanese Hernia Society and Taiwan Association of Endoscopic Surgery as well as board member in some domestic surgical societies.

Panel Discussion 4: Surgical treatment for advanced gallbladder cancer

June 3 (Thu.) 13:00-14:50 [Room 3 (1002)]

PD4-4 Minimal Invasive Surgery for Advanced Gallbladder Cancer

Ho-Seong Han

Department of Surgery, Seoul National University, College of Medicine, Seoul, Korea

POSITIONS:

- 2003- Present Professor of Department of Surgery
Seoul National University College of Medicine
Seoul National University Bundang Hospital(SNUBH)
- 2012- 2016 Director of Comprehensive Cancer Center of SNUBH
- 2013- 2016 Vice President of SNUBH.
- 2019- Present Director of Korean Armed Forces Capital Hospital

MEMBERSHIP:

- Immediate Past President**, Korean Society of HBP Surgery (2019- 2020)
- President (Current) & Chairman of Board of Directors** (2014 – 2016), Korean Society of Surgical Oncology
- Chairman of Board of Directors**, Korean Society of Laparoscopic & Endoscopic Surgeons (2016 – 2018)
- President (Current) & Chairman of Board of Directors** (2018 – 2020), Korean Society of Parenteral & Enteral Nutrition
- Treasurer of IASGO (International Association of Surgeons, Gastroenterologists and Oncologists)** (2015- Present)

EDITORIAL BOARD:

- Editor**, Ann Surg (2017- Present), Surgery (2018- Present), Associate Editor of Digestive Surgery(2017- Present) Journal of HBPS (2012 – Present), Surgical Oncology (2013- Present), World J Clin Oncology (2012 – Present), World J of Gastroenterology(2013- Present), SGO(2018- Present), Scientific Advisory Board (Asian Pacific Region), Annals of Surgical Oncology(2011 – Present)

Panel Discussion 5: Long-term outcomes after liver transplantation

June 2 (Wed.) 9:20-11:10 [Room 4 (1008)]

PD5-2 Long-term outcome after liver transplantation**Kyung-Suk Suh**

Department of Surgery Seoul National University Hospital, Korea

Prof. Kyung-Suk Suh is a Professor of Department of Surgery, Seoul National University College of Medicine.

Prof. Suh graduated from Seoul National University College of Medicine with his medical degree in 1984 and completed his internship and residency in Department of Surgery at Seoul National University Hospital, receiving his diploma in General Surgery in 1989.

Since 1993, Prof. Suh held a number of professional positions at the Seoul National University Hospital in Seoul, including instructor, assistant Prof., associate Prof., Prof., chairman of Department of Surgery Seoul national university College of Medicine, Chief of Seoul National University Hospital Transplant Center and Director of Seoul National University Cancer Hospital.

Since 2011, Prof. Suh have been taking a number of roles, including Director of the International affairs in Korean Society of Organ Transplantation (2011-), Chairman in Korean Association of HBP Surgery(2015-2017), President of the International Living Donor Liver Transplantation Study Group(2015-2017) and Chairman of Korean Surgical Society(2016-2018).

Prof. Suh's major fields of interest are Liver Transplantation, Oncological Surgery for Hepato-biliary Carcinoma and minimal invasive surgery.

Workshop 5: Appropriate surgical treatment for IPMN

June 2 (Wed.) 15:50-17:10 [Room 3 (1002)]

WS5-1 Management of IPMN and the ongoing tug of war: observation or operation?

Kjetil Søreide

Department of Gastrointestinal Surgery, Stavanger University Hospital
Department of Clinical Medicine, University of Bergen, Norway

Specializing in HPB surgery, he has published over 300 PubMed indexed articles in addition to several chapters and books. He has given numerous lectures to several surgical societies and national chapters. He is the primary lead for several translational and clinical research projects in gastrointestinal cancer (pancreatic cancer, colorectal liver metastasis, colon cancer, among others).

Completing medical school at the University of Freiburg in Germany he subsequently trained as a general and gastrointestinal surgeon at the Stavanger University Hospital in Norway where he is currently practicing as a consultant surgeon in HPB and general surgery in the Department of Gastrointestinal Surgery. He has been adjunct professor at the University of Bergen, Department of Clinical Medicine since 2011. In 2017/2018 he was visiting professor at the Department of Hepatobiliary and pancreatic surgery at the Royal Infirmary of Edinburgh and at the University of Edinburgh, UK. He has received several travelling fellowship awards, including the ESSO international fellowship award and the James IVth travelling fellowship. He is a member of several distinguished surgical societies, including the European Surgical Association, the International Surgical Group, and several surgical oncology and gastrointestinal surgery associations, including European Society of Surgical Oncology (ESSO) and European-African hepatobiliary and Pancreatic Association (EAHPBA). He is a fellow of the Royal College of Surgeons in Edinburgh and the American College of Surgeons. Starting as an editor assistant in 2007/2008, prof. Søreide has been an editor of the British Journal of Surgery since 2010 and serves on the editorial board of several other journals. He has contributed to several book chapters and is the coeditor of the "Textbook of Pancreatic Cancer" released in 2021. He is currently a member of the education and training committees of ESSO and E-AHPBA and a board member of the Norwegian Gastrointestinal Cancer Group (NGICG).
